

8" Portable Personal Air Circulator

CAT.NO 37878

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including the following:

1. Read all instructions carefully before use.
2. Check the condition of the unit after taking out from the box. Ensure that all parts are in good condition.
3. Before using the unit, check if the voltage indicated corresponds with the convenience outlet.
4. Do not use any appliance with a damaged cord or plug. If the cord is damaged it should be replaced with the same type and size or bring the unit to the nearest authorized service center.
5. Do not attempt to repair, adjust or replace parts in the unit. It must be check and repair by an Authorized Imarflex Technician or by similar qualified persons in order to avoid electric hazard.
6. Do not place the unit near gas stove or electric stove.
7. Children should be supervised to ensure that they do not play with the appliance.
8. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.
9. This unit must only be used for room ventilation. Do not use in bathrooms.
10. Do not insert any object into the Fan Guard.
11. Do not use the plug to stop or start the operation of the unit, use the Speed Control Knob.

12. To prevent the risk of electric shock do not operate the unit by wet hands.

13. For household use only.

14. Save this instruction manual for future reference.

FEATURES AND FUNCTIONS

Air circulator acts as a flow-straightener and further assists in focusing the outward stream of air into tight cyclone airflow.

- Summer: The cyclone air hits a wall across the room roughly halfway to decrease the room temperature.
- Rainy: This forces the hot air of the ceiling and mixes it with the cooler air resulting in an even room temperature.

APPLICATION

Base on hot air rises and cool air falls of aerodynamic.

DESCRIPTION OF PARTS

HOW TO USE

1. Please make sure the Speed Control Knob is in “0” position.
2. Plug the unit into the convenience outlet.
3. SPEED ADJUSTMENT — the speed can be adjusted by turning the Speed Control Knob to the desired setting:

| | |
|---|---|
| 0 | Fan is switched off |
| 3 | High range speed of the fan(Strong airflow) |
| 2 | Medium range speed of the fan (medium air flow) |
| 1 | Low range speed of the fan (Weak air flow) |

4. HEAD TILT ADJUSTMENT — this is equipped with a 70° tilt head for whole room air circulation.
5. OSCILLATION Knob - press the button to switch on the oscillation function. Press again to switch off the function

CLEANING AND MAINTENANCE

1. Always unplug the unit from the convenience outlet before disassembling.
2. Unscrew and remove the Front Fan Guard. (See fig.1)

fig.1

3. Clean the Rear Fan Guard with damp cloth. Wash the Front Fan Guard and Fan Blade with soap and water then rinse thoroughly. (See fig.2)

fig.2

4. Use vacuum or soft brush to clean the dust on the motor.
5. After cleaning return the Front Fan Guard and tighten the screws. (See fig.3)

fig.3

6. Wipe the Base with damp cloth.
7. Do not immerse the unit in water or other liquids.

Disposal:

The packaging material is reusable. Rid yourself of the packaging in an environmentally friendly way and put it in the collection of recyclable materials.

Dispose of the product and the batteries in view of the environment if you want to separate. The device and the batteries should not be thrown into the household garbage. Bring them to the recycling center for the used electrical and electronic devices. You can consult to the local government for more information. Remove the batteries first.
